

MANIFESTO OF FAITH OUT OF KNOWLEDGE.

We refer to our free will,
to the inalienable rights, to which we are at all times entitled...
and to the fact that every living, spiritually moral being of reason,
without the legal interpretation as an animal-like being,
is a spark and part of the Supreme Source of All Being.
Just as complete, perfect, all-knowing, divine, and whole -.
As the Supreme Source of All Being is itself,
but made forgotten, in matter.
Just as free
and perfect
and sovereign in full suzerainty
and whole,
in self-responsibility - like the Highest Source of All Being itself.
As I am, so is my counterpart.
I do not stand above him and he does not stand above me.
I am not worth more than him and he is not worth more than me.
No matter what job title he gives himself or what status he leads.
Thus, we are all free men and women, with the sole and entirely free.
Free disposal over our body and our property at any time.
Eternally endowed with the non-negotiable, inalienable rights,
which can never be taken away or limited, in full suzerainty.
To operate in the legal system, we use a
mask, the persona, to dive into it.
We are NOT persons. But have one.
We are NOT things or subjects.
We are NOT animal-like beings.
We do not have to be, and cannot be, LOADED.
We are NOT slaves without rights.
We are NOT serfs or in debt bondage.
We are NOT born here in sin,
As eternal sinners to atone or to "learn."
We are the perfect, eternal consciousness,
which, incarnated in a material body,
originally wanted to experience polarity, not duality,
to create in and out of love in and from matter.
We cast off the shackle of the guilt of the property of others
- the person imposed to us by others.
We give ourselves a new, own name as free people in suzerainty.
Thus we return to the origin.
